

Quality Management Practices in Hot Mix Production

A One-Day Seminar Offered by the Dakota Asphalt Pavement Association

WHEN: Friday, April 4, 2008: 8:00 am – 4:30 pm

**WHERE: Morningside Community Center
2400 S. Bahnson Avenue
Sioux Falls, SD**

COST: \$50.00/Person

This Program is designed for all operating, production management, quality management and inspection personnel. “Never Forget” best operating practices and best practices that result in consistent top quality mix are the focus of this program. Added for this year is the utilization of RAP material to mixtures and focus on energy efficiency at the plant. The program will be presented by T.J. Young, a nationally recognized expert in HMA plant operations and will be discussion and example oriented. Each participant will receive:

- Laminated Control Room Size “Best Practice Poster”
- Review of Best Practice and “Never Forget” Operating Practices
- Troubleshooting Guide relating mix results to mix production variables

To register, fax this registration to DAPA at 605-224-0134, mail to DAPA, 3030 Airport Road, Suite B, Pierre, SD 57501, email your confirmation to kswedeen@dakota-asphalt.org, or call DAPA at 605-224-8500 or 605-360-0045.
