DAKOTA ASPHALT
PAVEMENT ASSOCIATION

Mission Statement

The Mission of DAPA is to promote the use of Hot-Mix Asphalt Construction. We pledge to make quality of construction our foremost endeavor and the chief interest of our Association.

Therefore, DAPA's programs and activities will:

- Promote the use of HMA through education, engineering, and research.
- Maintain a quality image of HMA.
- Encourage specification standardization.
- Represent the industry's viewpoint and concerns to various public agencies on environmental, engineering and legislative issues.
- Represent industry interests to owners/customers.
- Provide information on issues to our membership through newsletters, alerts, meetings, training programs, etc.
- Provide technical support to membership.
- Work with others to assure a stable, long-term source of funding to maintain an adequate transportation system in the states of North Dakota and South Dakota.
- Develop guidelines and encourage ethical and environmental sensitive behavior by members.
- Create an atmosphere where all associations within the Highway Construction Industry can work together on items of mutual interests.

The organization will be guided in this effort by the following six points:

1. Our every approach will be designed to be of a constructive nature – never antagonistic in informing people of asphalt materials and services.
2. Our efforts will be designed to be helpful and informative to all those persons in purchasing authority, where our materials are in consideration.
3. We shall properly inform by use of proven facts and figures – never misrepresenting.
4. We will convey these facts to as many people, through as many mediums, as is possible.
5. We will seek to broaden asphalt and pavement technology knowledge through our state universities and other sources.
6. And finally, we recognize that through clean competition a healthy economy is created. Wherein the public is the beneficiary, we will strive to apply our construction knowledge so that our installations will bring lasting confidence from everyone.

Goals and Objectives of DAPA:

1. Produce quality product through engineering, research, and education.
2. Support industry-wide effort for transportation funding.
3. Provide technical assistance to the industry including user agencies.

Present Membership Includes:

- 14 Producer/Contractors
- 34 Supporting Assoc. Members
- 16 Sustaining Assoc.
- 15 Sustaining Consulting
- 5 Major Refiners

Representing approximately 80% of the Hot Mix Asphalt (HMA) placed in the Dakotas per year.
